Employee Orders - 2017 MY 17 VF Commodore and WN Caprice V

12 January, 2017

Local vehicle production comes to a close in 2017 and it is necessary to change the vehicle ordering process for employees, retirees and family members wishing to purchase a new MY17 Commodore/Caprice V.

Holden has arranged to hold a limited number of MY17 Commodore/Caprice production slots for employee/retiree/family member purchases and in order to secure one of these vehicles the following arrangements will apply.

1. Arrange for a Certificate from GM Partner Program (check out the instructions on CVO Socrates or contact CVO if you need assistance to initiate a letter of introduction)
2. Order your MY17 Commodore from your preferred Holden Dealership
3. Pay your deposit to the dealer
4. Advise your dealer to contact Holden Distribution to arrange for allocation of your vehicle

The earliest available vehicle will be allocated to you. Production specifications are being locked in during April so to ensure you are able to access the model, colour and options you desire please ensure you place your order with your dealer no later than 31 March, 2017.

Vehicles will be allocated based on a first come first served basis so the sooner you place your order the greater the chance of your order being fulfilled.

If the total available pool of reserved vehicles has been allocated, then a vehicle cannot be guaranteed. Dealers are not required to provide a vehicle for Holden employees or retirees so please act promptly to secure a MY17 Commodore or Caprice V vehicle using your employee discount and avoid disappointment.

Please note that this announcement does not impact on Reserve Edition Commodore orders which close on Jan 25, 2016. Also, Special Edition MY17 orders have already closed.

Thanks in advance for your support.
