

VICTORIOUS HOLDEN TEAMS IN REDEX TRIAL

CRACK Victorian drivers, LEX DAVISON, STAN JONES and CHARLES DEAN brought further laurels to themselves and to Australia's own car—the Holden—in the recent 6500 miles Round Australia Redex Reliability Trial.

The outstanding performance of Holden in the Monte Carlo Rally early this year is already well-known, and it was no surprise to GMH employees when the three Holdens entered by Preston Motors, comprising the Victorian team, won both the 1501-2500 cc. Section and the Teams Section of the Redex Trial.

The team lost a total of only 246 points compared with the loss of 524 points by their nearest rivals.
